- Strong Communication
- Data Presentation

Mdluli Njabulo Rivaldo

Computer Science & Business Computing In The Making

University of Cape Town student specializing in Computer Science and Business Computing. Dedicated to learn new things and prepared to face challenges with a strategic approach. Uses integrated approach across different fields to maintain good understanding on how computers and networking work. Driven and happy to participate and contribute in team works to move forward while gaining useful skills. Passionate and kind human being. I enjoy solving complex problems dynamically using the knowledge I have acquired over the years. Adapting is my number one skill.

WORK EXPERIENCE

Computer Science Tutor

03/2022 - current

University of Cape Town

- Python and Java programming language.
- Help students with their assignments and help them navigate themselves in the Computer Science field.
- I have helped students with a project where they had to make a desktop game application.

Web Developer Internship Frugalsure

05/2021-07/2021

Designing and developing the website for Frugalsure where I was on both the back and front end, applying the skills and knowledge I had on CSS, HTML5 and Javascript and a bit of PHP.

TeachMe2 Tutor

2022 - current

TeachMe2

I work as a tutor where I offer high school learners support to achieve better marks on their subjects where I mostly tutor Mathematics, Physical Sciences and Computer Applications Technology. This has made my communication and tutoring skills to develop over a span of 4 months and I'm still going forward as a proud member.

Mentor

2021 - 2022

University of Cape Town

Being a mentor has developed and transformed me as a person because it made me communicate with a lot of people and see how other people live and have different opinions from mine. I helped a lot of people as a mentor where I had to offer support and advise to students who needed them to keep pushing on their courses. This also made me a better person throughout my years at UCT.

Leo Marquard Hall Academic Committee

02/2021 -11/ 2021

University of Cape Town

This committee deals with helping students adapt to the university life where my job was to offer support to those in need like helping them out with their school work since the committee was academically based. I gained a lot of skills like communication skills which was beneficial for me.
